HOMEWORK SUPPORT

We support students with daily homework. We review any concepts that your child finds challenging and simultaneously develop executive functioning skills.

EXAM PREPARATION

Students struggle with not only what to study, but how to study. We meet with your child days before an exam to help them prepare for the exam as well as review how to prepare independently for the exam.

ACT/SAT TEST PREP | HIGH SCHOOL PLACEMENT TEST

ASP offers an extraordinary team of highly experienced tutors who work one-on-one with your child to prepare for the test of your choosing.

We have an excellent track record of reliably increasing your child's comfort and scores on these important tests.

COLLEGE COUNSELING

ASP offers a highly qualified high school college counselor who will guide your child in their approach to college. Preparing for college is a multi-faceted endeavor. Our team will collaborate with your family to decide where to apply, how to apply, and help you through the application process from start to finish. Counseling includes resume preparation, ACT/SAT support, college exploration, applications, and essay writing.

ACADEMIC COACHING

If your child resists support or life is too busy to manage your child's academic progress, ASP can provide a comprehensive support program.

READING SUPPORT

If your child struggles with reading, ASP will assess the student's current reading level and use that information to design instruction to enhance the child's strengths and fortify their weaknesses.

WRITING SUPPORT

Our writing tutors can support students in any class with all writing assignments. We focus on sharpening writing skills and can eventually also guide students through college application essays.

EXECUTIVE FUNCTIONING SKILLS SUPPORT

When students lack executive functioning skills that they need to be independent and successful, these skills need to be taught. This includes planning, organization, task initiation, sustained attention, goal-setting, decision-making, and problem solving.
